

MAP-21 and Pavement Performance

RPUG

September 2013

-or-
“The interesting
view from the
Ivory Tower”

Official Training Center

What is the secret
to continued
employment?

Do not confirm or
deny anything!!!

Interesting Issue I:

MAP-21
Legislation

No adjustments
To Legislation!

More Interesting I:

- Risk-based Asset Management Plan
- Targets to be set every 4 years
- Minimum Standards for Interstate Pavements

Digging Deeper...

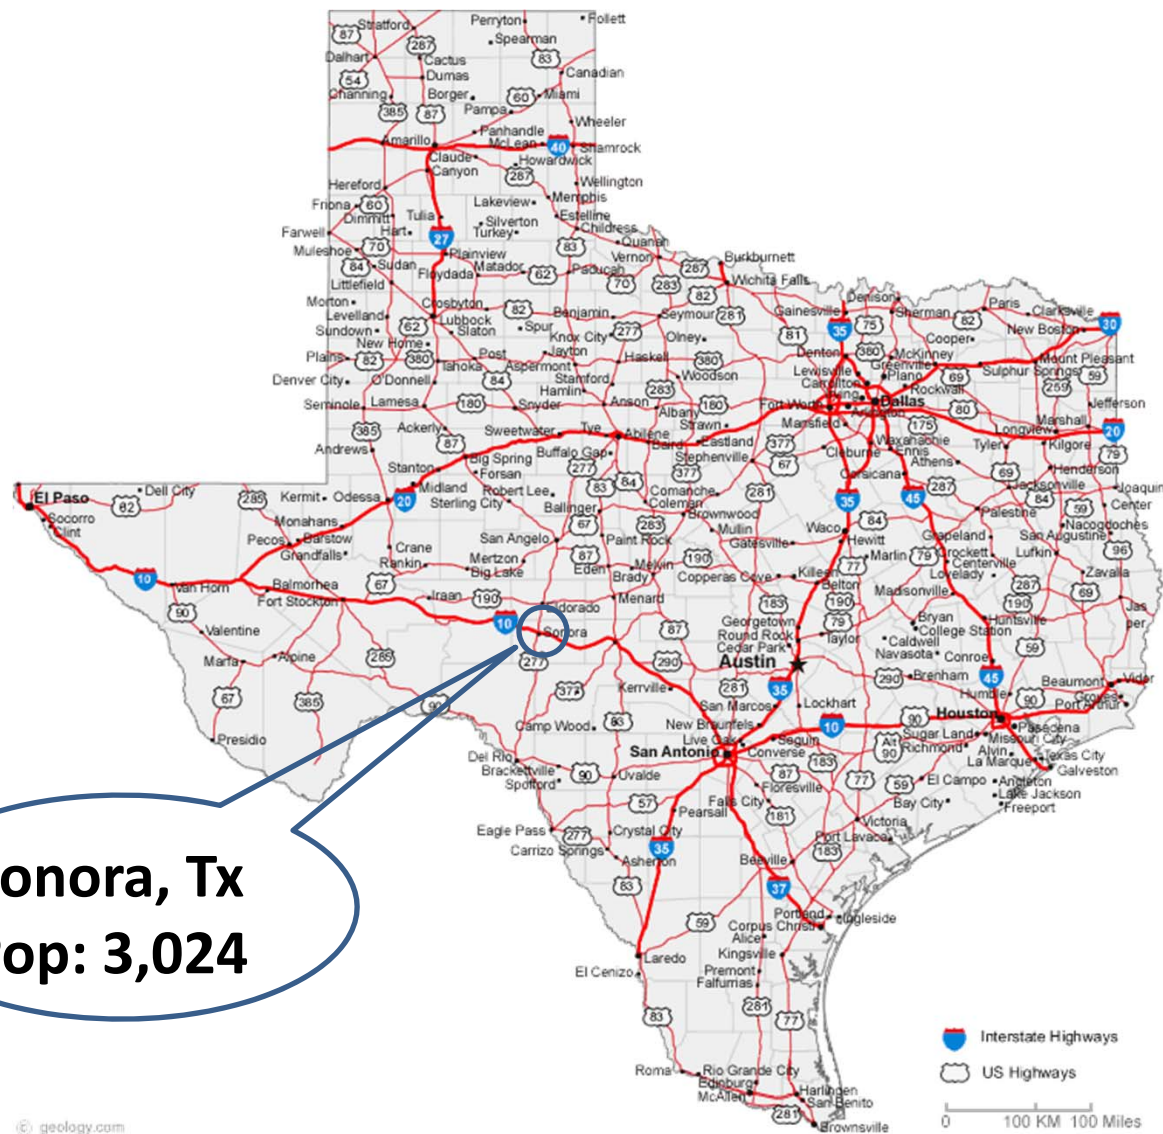

"...Define data
elements to
support a
performance-
based program..."

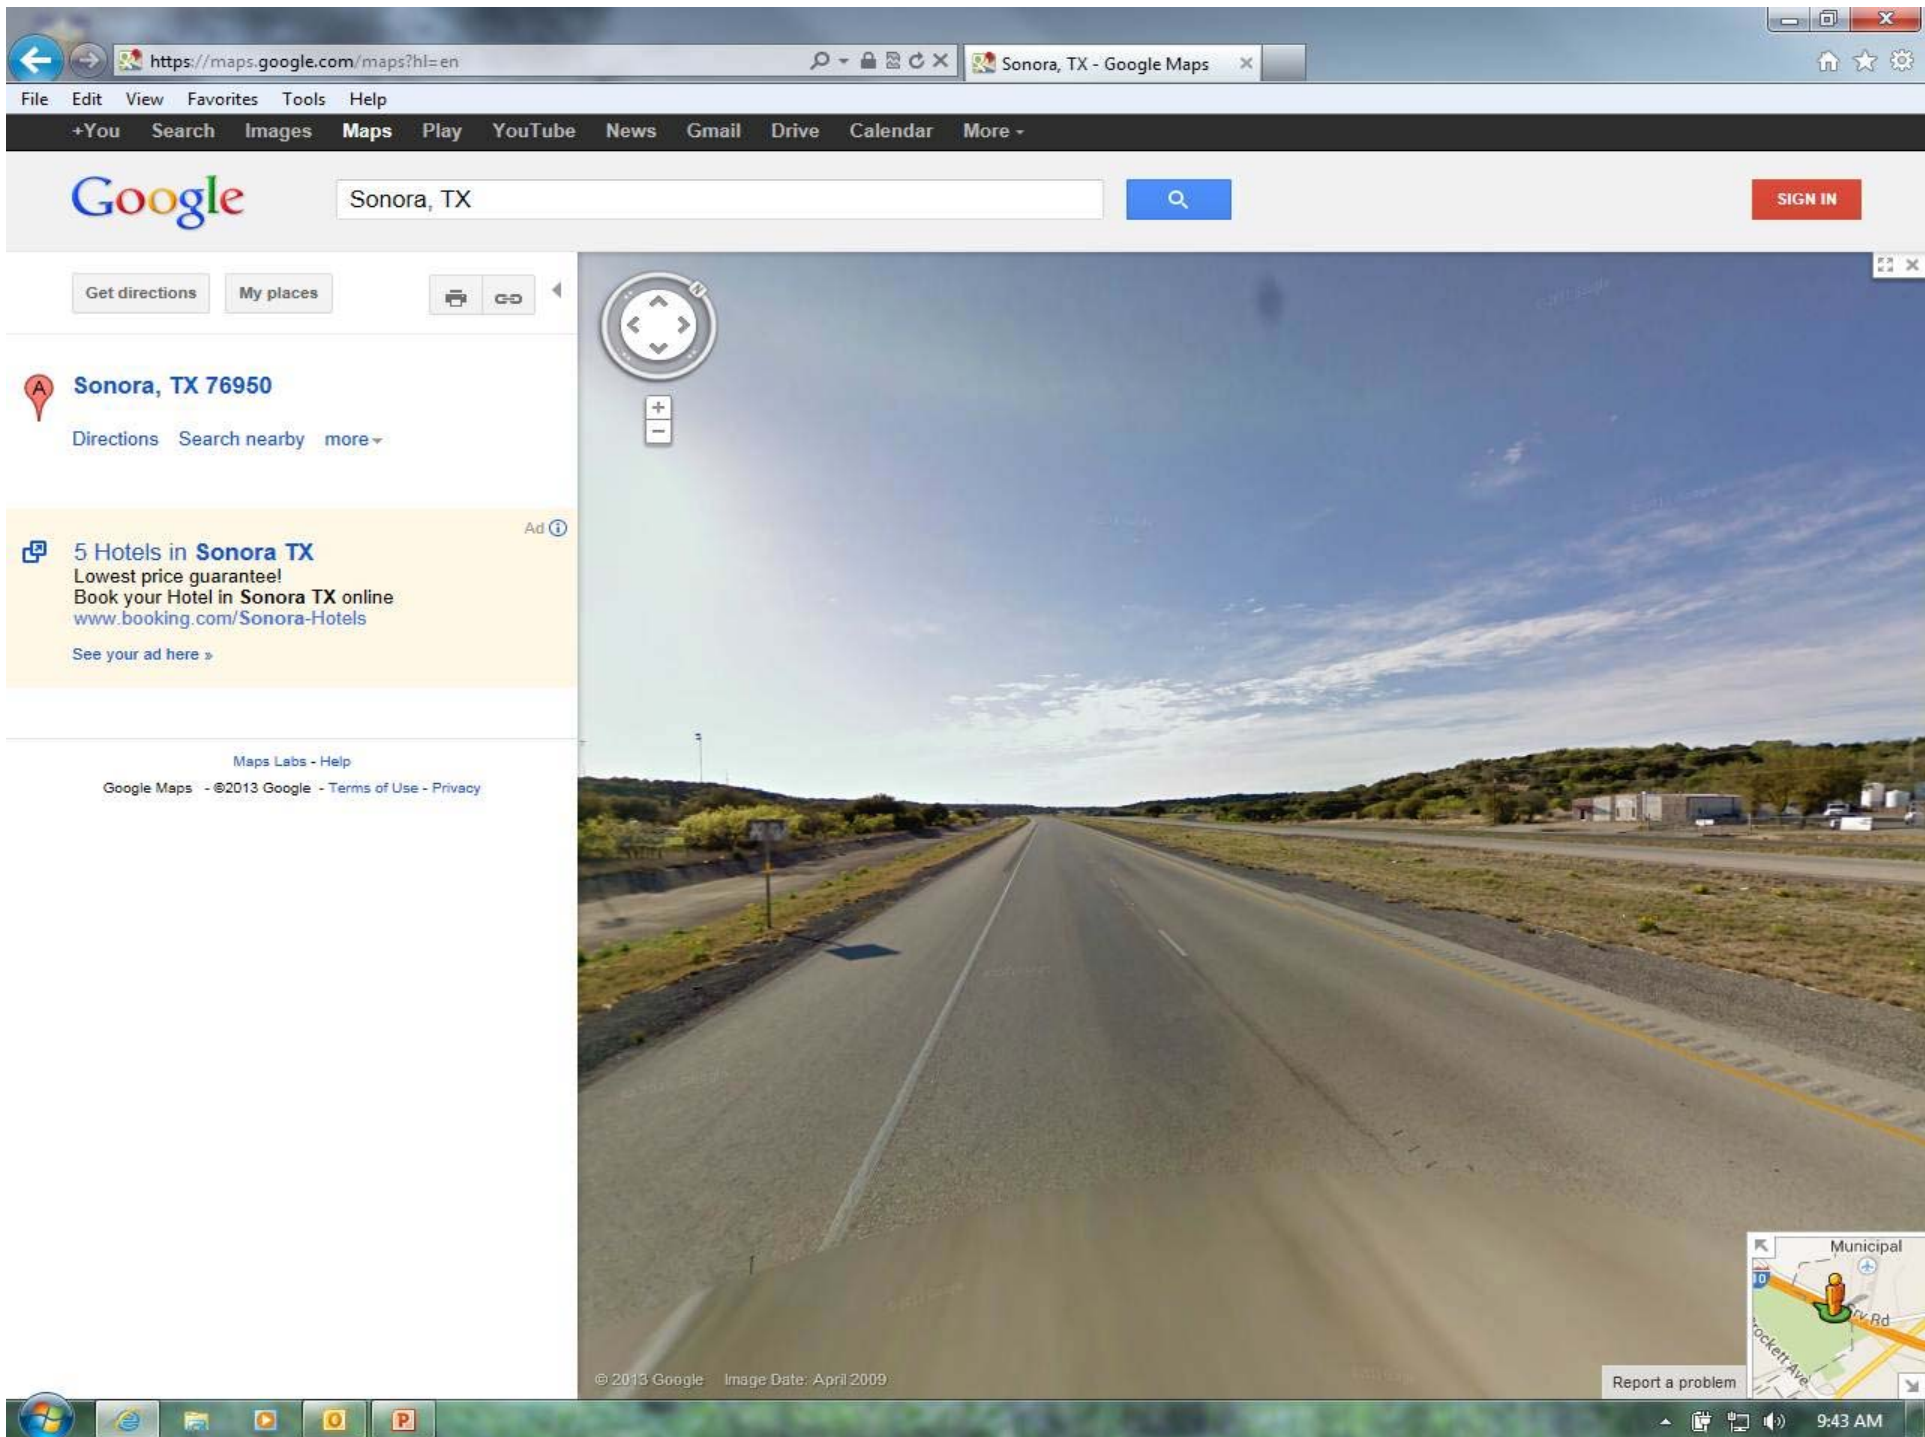

Interesting Issue II:

- What's reported?
- What's supposed to be reported?
- What data is reasonable to expect?

More Interesting III:

Adjustments?

U.S. Department of Transportation
Federal Highway Administration

FHWA Program Performance Management

Rutting?

IRI?

Cracking?

ADT?

Faulting?

ISO!!

AASHTO!!

ASTM!!

Proprietary!!

Use Ours!!!

**What
Standards??**

Trust Us!!!

Standards??

Interstate Highways:

Eastbound = Westbound?

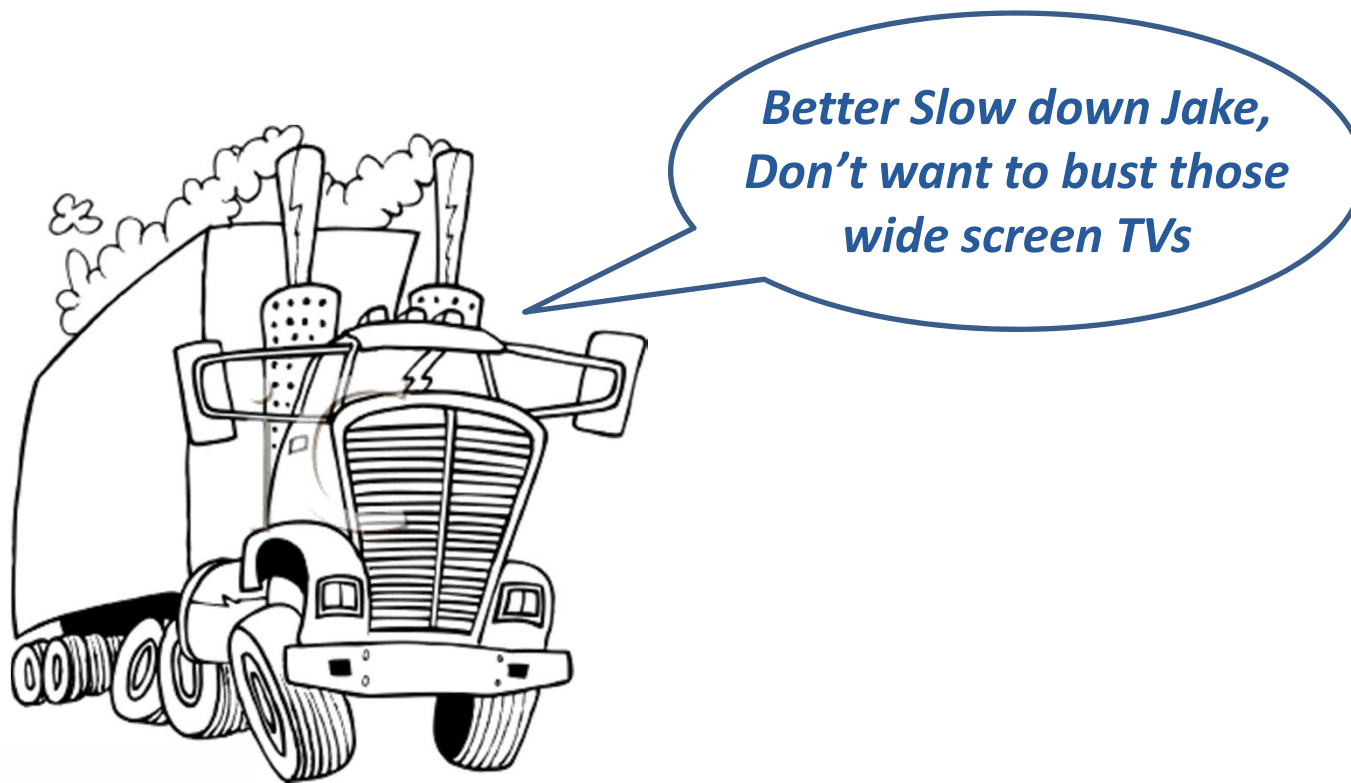

Northbound = Southbound?

Inside Lane = Outside Lane?

More Questions???

Rural Highways = Urban Highways?

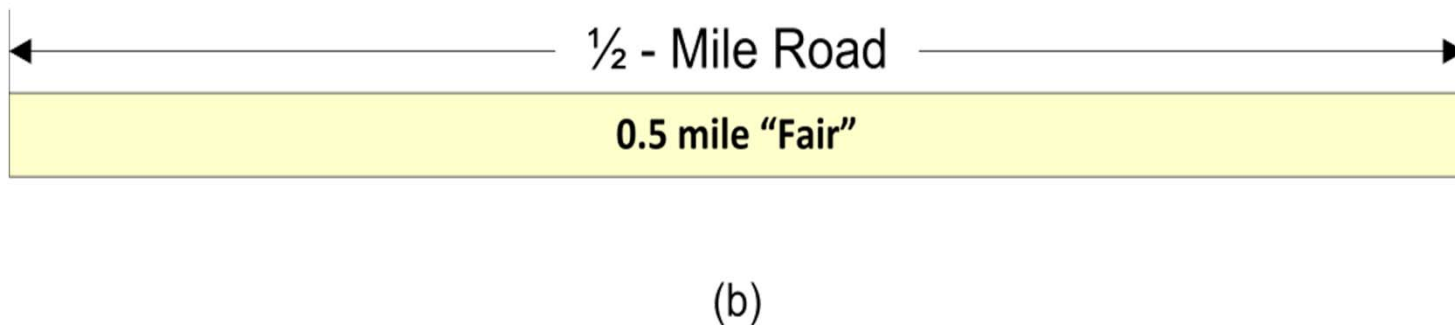

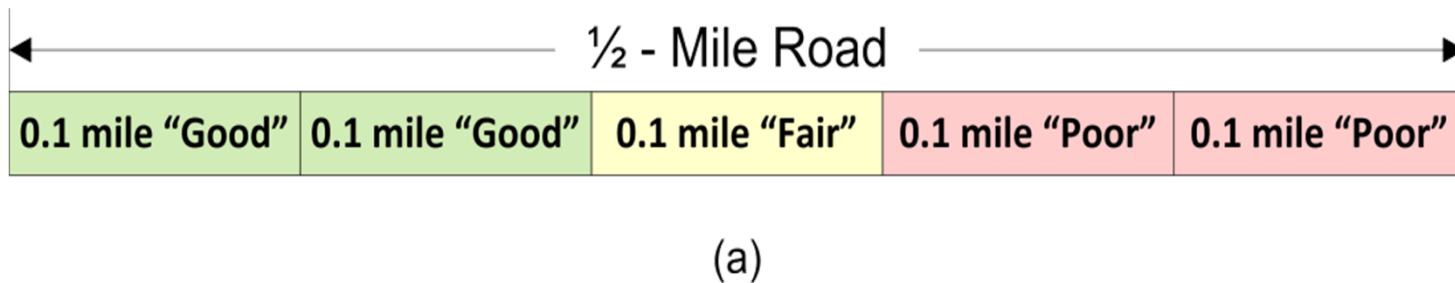

Figure X - A $\frac{1}{2}$ -mile road is measured at (a) 0.1-mile section and (b) the same road is measured at 0.5-mile section

Reporting Frequency???

U.S. Department of Transportation
Federal Highway Administration

FHWA Program Performance Management

What about Samples?

**Scientists use
Statistics all the time
to estimate stuff...**

**But, don't you have to be
careful to measure similar
kinds of things, like number
of sick people?**

**We could do that with
highway pavements,
couldn't we?**

I don't know, can we?

Maybe ?????...

IRI= 169.3

Cracking = 28.349%

Cross-slope = 12.376%

AADT=2933

Rutting=.....!!!!

*#@ *&%\$!= *(9763%^7.*

1

.....

**But, is it
Good, Fair
or Poor???**

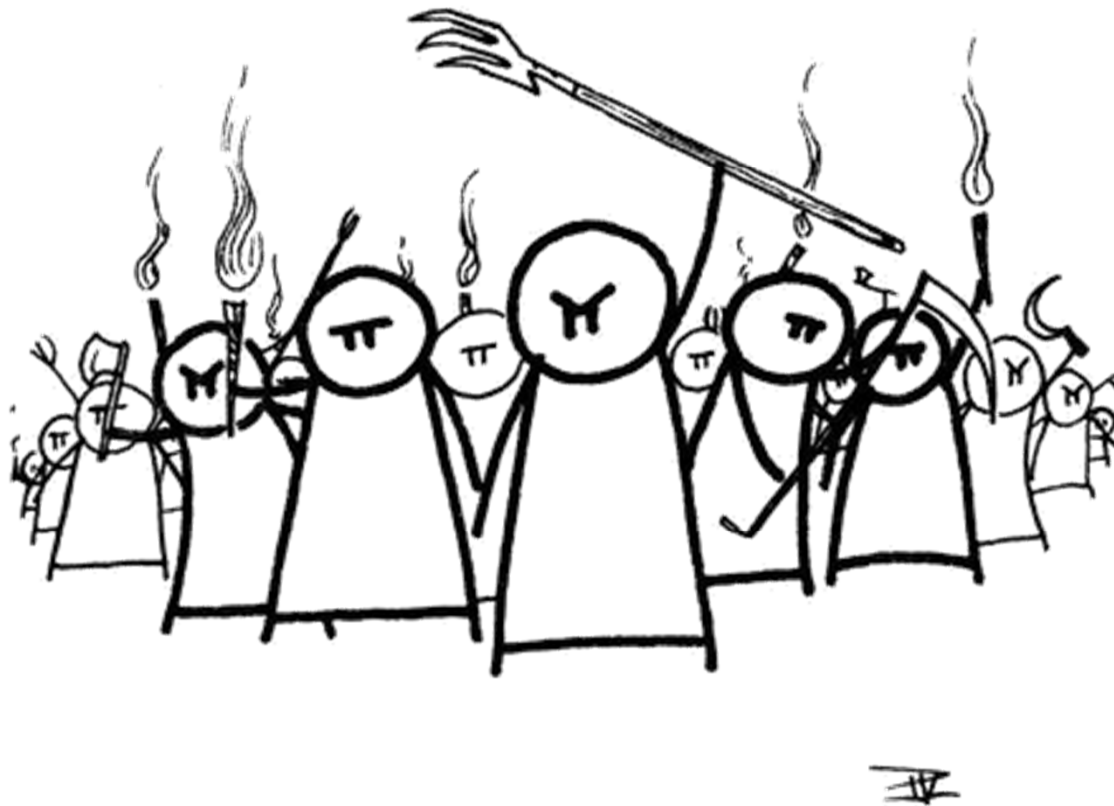

Keep it Simple,
Sss...
